

DESCRIPTION

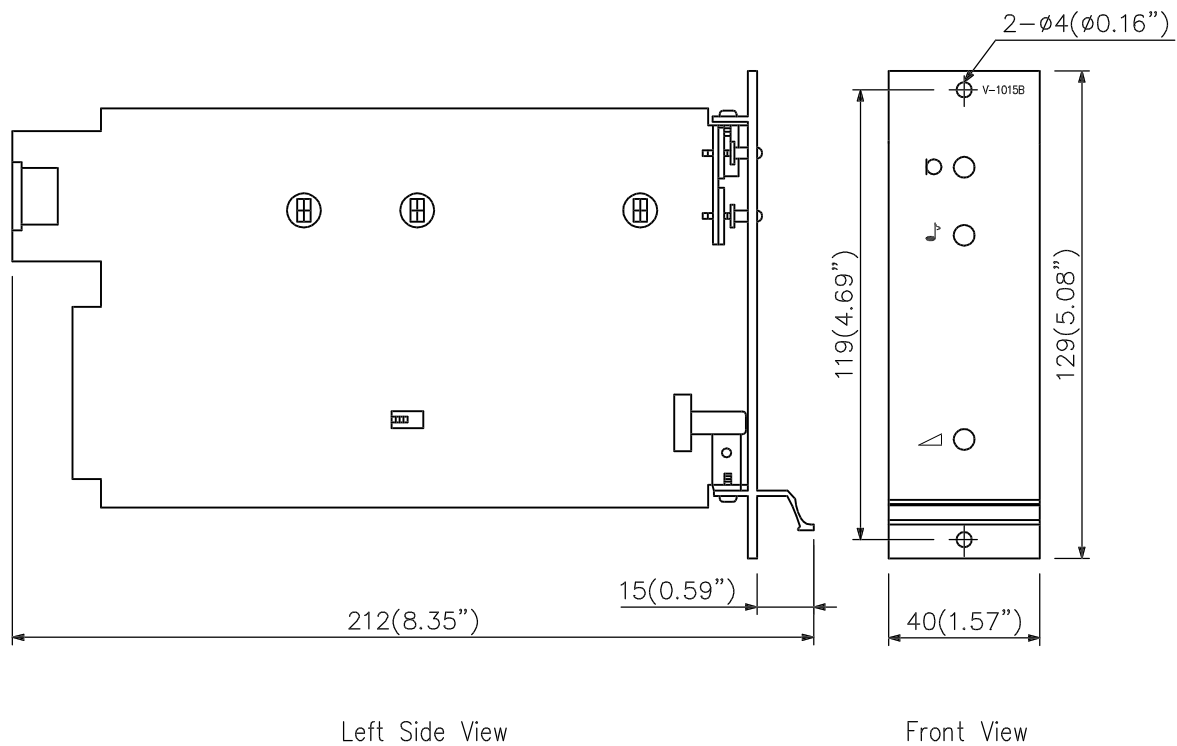

The V-1015B is a chime module can generate two-tone chime or gong signal inconjunction with the mixer flame V-1000B or the VM series mixer power amplifier.

SPECIFICATIONS

Signal	Two-tone chime or gong (switchable)
Frequency Response	Chime : 440 Hz, 554 Hz Gong : Mixed frequency of 440 Hz, 554 Hz
Sounding Time	Chime : Approx. 2.5 s
Output Level	280 mV(p-p)
Output Impedance	10 kΩ
Current Consumption	33 mA
Indicators	Chime/Gong : Red LED Speech : Green LED
Controls	1 output level control 2 frequency controls 1 speed control
Connections	Indication output : 5-pin DIN socket Signal output & power received : 10-pin card edge connector
Color	Black
Dimensions(W×H×D)	40 (1.57")×129 (5.08")×212 (8.35") mm
Weight	140 g (3.07 lb.)

※ This module works on the highest priority always when operated.
